The following information updates and supersedes the information in our Prospectus Supplement (the "Prospectus Supplement"), Subject to Completion dated May 10, 2006, To Prospectus Dated May 10, 2006. In addition, the information set forth below under "Capitalization" supersedes and replaces in its entirety the information set forth in the Prospectus Supplement under the caption "Capitalization."

## Update on Offering Size

We are offering $\$ 400.0$ million aggregate principal amount of $9.250 \%$ Senior Notes due 2016.

## Status of Tender Offer

As of May 9,2006 , holders of $\$ 349.4$ million in aggregate principal amount of $9.25 \%$ notes have tendered in the tender offer. We have increased the size of the tender offer to up to $\$ 360$ million.

## Use of Proceeds

We expect to receive net proceeds from this offering of $\$ 391.8$ million, after deducting the underwriting discounts and commissions and our estimated offering expenses. We intend to use the net proceeds from this offering to purchase $9.25 \%$ senior notes tendered to date in the tender offer (including the payment of the tender premium, accrued and unpaid interest, the early tender payment and related fees and expenses); with the remainder (an estimated $\$ 13.1$ million) to repurchase additional $9.25 \%$ senior notes that may be tendered, subject to the cap, to retire other debt or for general corporate or working capital purposes.

## Update on Concurrent Offering Size and Use of Proceeds

We are offering $\$ 190.0$ million (with an additional $\$ 28.5$ million should the underwriter's option to purchase additional notes be fully exercised) aggregate principal amount of our $2.5 \%$ convertible senior subordinated notes due 2011 in the concurrent offering. We intend to use the net proceeds from the concurrent offering of $\$ 183.9$ million (excluding the underwriter's option to purchase additional notes) to redeem, repurchase or otherwise retire $\$ 176.5$ million of our $\$ 200.0$ million aggregate principal amount outstanding of our $10.5 \%$ senior subordinated notes due 2009 (together with the payment of the related premium, accrued and unpaid interest to and including the redemption date and related fees and expenses). In the event the underwriter exercises its option to purchase additional notes in full, we intend to use the proceeds to redeem, repurchase or otherwise retire the remaining amount of our $10.5 \%$ senior subordinated notes due 2009, with the remainder (an estimated $\$ 3.2$ million), to retire other debt or for general corporate or working capital purposes.

## Outstanding Debt and Ranking

As of March 31, 2006, assuming completion of the concurrent transactions, we would have had approximately $\$ 1,464.8$ million of senior debt (approximately $\$ 300$ million of which would have been secured), $\$ 213.5$ million of senior subordinated debt and approximately $\$ 378.4$ million of subordinated debt.

## Settlement Cycle

We expect that delivery of the notes will be made against payment therefor on May 26,2006 , which will be the 11th business day following the date of pricing of the notes (such settlement cycle being herein referred to as "T + 11)"). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, or Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next seven succeeding business days will be required, by virtue of the fact that the notes initially will settle $T+11$, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date of pricing or the next three succeeding business days should consult their own advisor.

## CAPITALIZATION

The following table sets forth our cash and cash equivalents and total capitalization as of March 31, 2006 (1) on a historical basis, and (2) as adjusted to give effect to the concurrent transactions, based on the following assumptions:

- the issuance of $\$ 400.0$ million of senior notes in this offering for net proceeds of $\$ 391.8$ million and the application thereof to repurchase $\$ 349.4$ million aggregate principal amount of our $9.25 \%$ notes in the tender offer, and
- the issuance in this offering of $\$ 190.0$ million of convertible subordinated notes for net proceeds of $\$ 183.9$ million and the application thereof to redeem $\$ 176.5$ million aggregate principal amount outstanding of our $10.5 \%$ senior subordinated notes.
